The 2020 Census count is used to give our community our fair share of billions of dollars in federal aid for services like schools. A full census count means appropriate class sizes, expanded school programs and better facilities. The 2020 Census will also determine how many elected officials our community receives. A census undercount means our community won't have enough representatives to fight for us and we won't receive the money and services our communities need.

It's just a few simple questions, like age, race* and sex — NOT citizenship. You share more information just ordering something online, and your information is protected.

Remember, if you are of African descent,

Check Black! and you can still identify as Haitian, Jamaican, Panamanian, Nigerian, or any other ethnicity or nationality.

WE NEED Improved Healthcare

The 2020 Census count is used to give our community its fair share of billions of dollars in federal aid for services like public spaces and roads. A full census count means more lights, better playgrounds and safer parks. The 2020 Census will also determine how many elected officials our community receives. A census undercount means our community won't have enough representatives to fight for us and we won't receive the money and services our communities need.

It's just a few simple questions, like age, race* and sex — NOT citizenship. You share more information just ordering something online, and your information is protected.
